PROFESSIONAL EXPERIENCE

Warehouse Associate | HD Supply, Pleasanton, CA Apr 2023 – Present

- Pick, pack, and stage 200+ orders per shift across a 150,000 sq. ft. distribution center serving commercial maintenance and construction accounts
- Operate sit-down and reach forklifts to pull bulk product from racking, replenish pick locations, and load outbound trailers safely and efficiently
- Perform quality checks on outbound orders, verifying item counts, SKU accuracy, and packaging integrity before shipment, maintaining a 99.4% accuracy rate
- Complete daily cycle counts using RF scanners and WMS to reconcile inventory discrepancies and support accurate stock levels
- Collaborate with the shipping team to prioritize same-day and next-day orders, consistently meeting cutoff deadlines during peak volume periods

Material Handler | Medline Industries, Lathrop, CA Jun 2021 – Mar 2023

- Received, inspected, and put away inbound shipments of medical supplies and equipment in a temperature-controlled 250,000 sq. ft. distribution facility
- Operated electric pallet jacks and stand-up forklifts to move product between receiving docks, storage racking, and outbound staging areas
- Processed 80+ outbound orders per shift using voice-pick technology and handheld RF scanners, meeting or exceeding daily rate targets
- Followed strict lot tracking and expiration date protocols to ensure FIFO compliance for regulated healthcare products
- Maintained a clean safety record with zero incidents over 21-month tenure; participated in weekly safety huddles and monthly warehouse inspections

Warehouse Worker | Ferguson Enterprises, Stockton, CA Aug 2018 – May 2021

- Loaded and unloaded delivery trucks and freight trailers carrying plumbing, HVAC, and waterworks products weighing up to 75 lbs. per piece
- Picked and staged customer orders using RF scanners and the company's proprietary WMS, processing 100+ line items per shift
- Received inbound vendor shipments, verified quantities against purchase orders, and resolved discrepancies with the receiving supervisor
- Organized warehouse racking and bin locations through regular slotting projects, improving pick-path efficiency by 15%
- Trained 5 new warehouse associates on equipment operation, order accuracy procedures, and safety protocols during onboarding
